DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 65-86, 95-103, and 106-110 rejected under 35 U.S.C. 102(b) as being clearly anticipated by WO 98/58002.

The cited prior art is of record in the co-pending application case, and its disclosures are as noted therein. It is the Examiner's position that the cited prior art has features and characteristics as claimed, and as explained in the co-pending case.

3. Claims 65-86, 95-103 and 106-110 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-29 of copending Application No. 10/384,075. Although the conflicting claims are not identical, they are not patentably distinct from each other because of the reasons indicated in the previous communication.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
